INTRODUCTION

Apogee has established a full-fledged contracting division in 2013. Being an ISO 9001:2015 certified company capable of executing MEP contracting works in Oil and Gas, Power sectors, building Services such as all Electrical LV works, Extra Low Voltage systems, HVAC, Fire Fighting, Lighting on turnkey basis. Right from design and development to erection, testing, commissioning and maintenance services for all type of projects.

Our personnel's are highly competent and well-qualified team of engineers who have gained considerable experience in their specialized disciplines and construction techniques in the different part of the world. We are able to provide the necessary support in the design development, technical back up and assistance in procurement of materials for all our projects.
Further we have a another division where we do trading in the field of Electrical, ELV and Mechanical mainly Generator sales and rental including maintenance.
Experienced staff can offer you valuable consultancy advice, while our group attends to your orders and arranges for their prompt and on-time delivery.

Apogee offers quality technicians which will meet the demands of the local market. Mainly to work in Oil & Gas and power sectors with relevant gate pass, safety induction, work experience in Ras Laffan, Mesaieed, Dukhan, Kahramaa substations etc. We have an extensive pooling of manpower reserve from which human resource requirements could be steadily drawn to meet the demand of the clients.

We are capable of executing sub contract works in Offshore platform. All our personnel's are well trained with valid offshore training and familiar with safety standards. Most of our customers are satisfied with our resources and on time delivery.
We from Apogee Engineering proud to serve for Qatar National vision 2030 and for FIFA 2022.

OUR VISION

To achieve our goals by working as a team in harmony with our clients, consultants, contractors, colleagues and suppliers. To constantly strive to improve and implement up-to date technology with innovative management techniques while abiding by the best international building construction standards.

To promote & utilize environment friendly GREEN products in electromechanical construction while contributing to the growth of Qatar.

OUR MISSION

Dedicated to create an infrastructure with the support of our highly motivated team, this exceeds the expectations of our clients.

QUALITY COMMITMENT

The pursuit of total quality is a way of life for Apogee. It has always been part of its business culture to achieve the highest quality measures. Apogee understanding of the total quality is to achieve the highest internal and external quality performance.

Internal Quality Performance: Is to work in high performance workflow model, with teamwork concept, in a professional working environment, with creative minds and long vision policy, to increase the productivity and save a valuable time.

External Quality Performance: Is to understand who its customer is and what his requirements are, and meeting those requirements without error, on time every time, before, during and after sales.

The Total Quality is a commitment backed by the owners, the management and the highly qualifies professional employees.

"In today's competitive market, our target is to constantly improve the performance of our work and the quality of our services to ensure complete satisfaction of our customers."

HSE POLICY

These are the pillars of Target Zero, Our Commitment, Communication, Culture and Learning, that extends all Apogee Engineering & Technical Services Co W.L.L projects.

Target Zero is about a safe work environment, fastering a 24/7 culture of safe behavior, and a continual drive towards no adverse environmental impact. It also extends to security and asset protection, ensuring that staff, project sites, client, company information and properties are properly safeguarded.

Target Zero is cultural and global. it encourages dedication and steady attention to those things that matter most; our people, our clients, and the communities where we live and work.

Apogee Engineering & Technical Services Co W.L.L has performed project and program delivery as well as operations and maintenance services, and we currently have employees delivery projects within Qatar.

Target Zero program are emphasized to employees on their first day on the job and virtually every day throughout their careers with Apogee Engineering & Technical Services Co W.L.L

Target Zero is embedded in our mission and values, it is underscored by our staff at every opportunity, from the boardroom to on-location toolbox team meetings. Target Zero is at the convergence of all that we do, and we wouldn't have it any other way.

HEALTH, SAFETY AND ENVIRONMENTAL POLICY

We are committed to maintaining and improving Health and Safety Management System in accordance with ISO 45001:2018 standard requirements periodically.

These are the pillars of Target Zero, our comprehensive operational, educational and training program that extends all Apogee Engineering & Technical Services Co. W.L.L. projects.

Target Zero means complying with all relevant Health, Safety, Legal, and other statutory and regulatory requirements.

Target Zero is about a safe work environment, fostering a 24/7 culture of safe behavior, and a continual drive towards no adverse environment impact. It extends to take care of legal aspects, security, asset protection, project sites, client and company information to ensure our properties are properly safeguarded.

Target Zero is our culture to implement among the workforce. To achieve this, we are committed to do the consultation and participation on Health, Safety and Security matters, with all our workers and others who may work under our control to ensure that the arrangements of Occupational health & safety management are practically implemented and effective.

Target Zero programs are emphasized to employees on their first day on the job and virtually every day throughout their careers with Apogee Engineering & Technical Services Co. W.L.L. Target Zero is embedded in our mission and values. It is underscored by our staff at every opportunity, from the boardroom to on-location "toolbox" team meetings. Target Zero is the convergency of all that we do, and we wouldn't have it any other way.

QUALITY POLICY

Apogee Engineering and Technical Services Co. W.L.L. is committed to consistently met and exceed its customer's requirements and experience in service performance and delivery.

To achieve and maintain this objective, we are committed to:

- We maintain and improve Quality Management System in accordance with ISO 9001:2015 standard requirements time to time.
- We determine, understand and consistently meet customer requirements and expectations.
- We identify the risks that may affect the conformity of products services, in order to conduct root cause analysis to establish mitigation controls and identify quality improvement prospects.
- We monitor, measure and review performance of mitigation controls for continual improvement.
- We encourage, motivate and develop to improve the skills of the employees.
- We provide leadership to quality management system with respect to the context of the organization and interested parties.

This policy shall be reviewed and ensured to meet the business needs to deliver the values towards customer requirements time to time.

DIVISIONS

Contracting Division (Construction)

Electrical Division

ELV

Mechanical Division

BMS Division

Fire Fighting Division

Civil & Fitout Division

Services Division

Generator Operations and Maintenance

Technical assistance to OEM

Man Power Supply Division

Oil and Gas Certified Personnel's

Skilled Technicians

Semi-Skilled Technicians

Trading Division

Mechanical (Generator sales, spare parts)

Electrical Products (Cable tray, power cables etc.)

Low Current System Products (Cables)

Switchgear Division (LV Panels)

ELECTRICAL DIVISION

Apogee was established in 2013. Our scope of activities extends to cover all aspects of electrical services in oil and gas, power sectors and to the different types of buildings such as commercial, residential, industrial, and army buildings…etc.

Apogee having full-fledged resources to work inside oil and gas plant mainly in Ras Laffan, Mesaieed & Dukhan. We have trained personnel's to work both in onshore and offshore. We do all type of electrical installations, testing and assistance for commissioning.

Activities:

Small Power Installation

Apogee started to install all kinds of electrical works in different types of buildings with committing to kharamaa standard's

Sub-Main Cubical Panels

Sub-main panels & cubic panels of different size and types have been installed by our teams in different projects, such as the residential complex and the multistory buildings. These panels were installed, terminated, tested and commissioned by our teams and ensured by supervisors and engineers

Fire Alarm System

Different type of fire alarm system (i.e. conventional and addressable) have been installed by our technicians using different types of mechanically protected cables and the normal cables depending on the individual projects requirement. Also these systems are approved and certified by the fire fighting department

MECHANICAL DIVISION

Apogee offers competent, cost effective and high quality engineering mechanical services for different type of facilities, environmental, industrial, commercial, governmental and institutional. Our services also include hotels, museums, laboratories, administration, and domestic high-rise building, hospital with classes' consideration is another important type of facilities covered our specialized engineering team. Most of our key staff has more than 10 years experiences with mechanical firms; they have long experience in prestigious projects.

Qatar, Gulf countries and their home land. Our strategy in accident prevention and safety when execution the works is personal safety above all over principal is respecting safety regulations is an absolute obligation: our attitude is think better works.

Activities:

- Heating, Ventilation and Air Conditioning System
- Plumbing System
- Drainage System
- Fire Fighting System
- Fabrication works

Our Services

RENTAL SERVICES

Apogee provides reliable and cost-effective vehicle and equipment rental solutions to support the oil & gas, construction, utility, infrastructure, and industrial sectors. Our fleet is maintained to the highest standards, ensuring safety, reliability, and maximum operational efficiency.
Whether for short-term assignments or long-term projects, we offer a wide range of vehicles and specialized equipment to meet our clients' operational requirements. Our rental services are supported by experienced operators (where required), preventive maintenance programs, and prompt technical assistance to minimize downtime.

- 1 Ton Pickup
- 3 Ton Pickup
- Crew Cab Pickups
- Cargo Trucks
- Diesel Generators
- Utility Vehicles
- Boom Trucks
- Truck-Mounted Cranes
- Manlift Support (as required)
- Portable Generators
- Air Compressors

Our Services

TRADING, SUPPLY & TESTING EQUIPMENT RENTAL

Apogee provides comprehensive trading, procurement, and equipment rental solutions to support the Oil & Gas, Petrochemical, Power, Construction, Infrastructure, and Industrial sectors across the Sultanate of Oman

Electrical Materials

- Cables & Wires
- Cable Glands & Lugs
- Cable Trays & Accessories
- Switches & Sockets
- Circuit Breakers (MCB, MCCB)
- Distribution Boards
- Lighting Fixtures
- Electrical Panels & Accessories

Instrumentation Materials

- Pressure Gauges
- Temperature Gauges
- Pressure, Flow & Level Transmitters
- Control Valves
- Instrument Cables
- Junction Boxes
- PLC & DCS Accessories

Mechanical & Piping Materials

- Pipes & Pipe Fittings
- Flanges
- Valves
- Gaskets
- Fasteners
- Structural Steel Materials
- Welding Consumables
- Industrial Hardware

Safety Products (PPE)

- Safety Helmets
- Safety Shoes
- Coveralls
- Gloves
- Safety Goggles
- Face Shields
- Reflective Vests
- Fall Protection Equipment
- Respiratory Protection

Fire & Safety Equipment

- Fire Extinguishers
- Fire Hose Reels
- Fire Blankets
- Emergency Exit Signs
- Safety Signage
- First Aid Kits

Testing Equipment Rental

- Electrical Testing Equipment
- Instrumentation Testing Equipment
- General Testing Equipment

BMS DIVISION

Apogee provides complete turnkey BMS projects, incorporating building control, energy management / monitoring and access control systems, from system design and specification to installation and commissioning.

As an independent systems integrator with access to the very latest BMS energy saving technology from market leading manufacturers, we are able to select the best products for new builds, refurbishments and for integrating into existing systems. and, as you would expect from a forward looking company, we keep up to date with the latest innovative technology around the world, enabling us to meet and foresee changing customer requirements.

- Control the climate in the building.
- Supervise and control the heating, ventilation, and air conditioning equipment.
- Perform facility management (generate reports, graphs and annunciate alarms when there is a problem)
- Perform energy management strategies to reduce operating and energy costs.
- Integrate building systems such as security, fire alarm, lighting controls,etc.

Activities:

- Access Control System
- Video Door Phone
- Intrusion Alarm System
- Paga System
- CCTV

Reduce our customer's energy costs and increase their power quality and security through optimal building performance utilizing our expertise in :

Sustainability
Renewable Energy
LEED Certification
Energy Star

Rate Analysis Gas and Electric Procurement Alternate Fuel Analysis Incentives/Rebates

Mechanical upgrades/retrofits
Electrical system upgrades
Controls/EMS

PUBLIC ADDRESS SYSTEM

Public address system includes different sizes and different types of speakers in addition to amplifier & microphones were installed in different projects by our technicians.

LIGHTING, CONTROL & FEEDER PILLAR

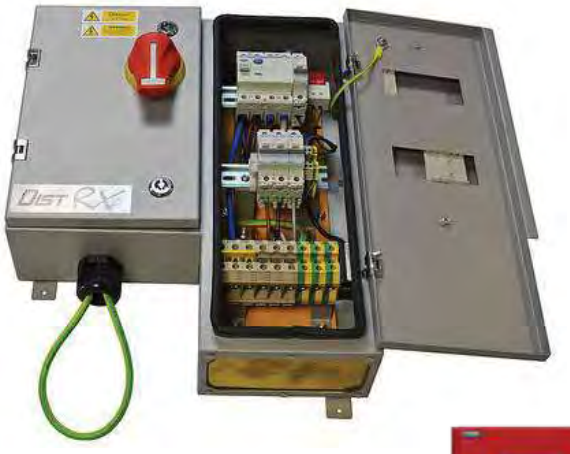

The electrical division has experience in erecting of light poles, cabling, termination and commissioning of street light & feeder pillar were we have executed many different projects.

LOW VOLTAGE SYSTEM

Our Low Voltage division can carry the following activities

- Fire detection system
- CCTV
- Building Management System
- Public Address System
- Security and Access Control System

ONSHORE PROJECTS

- **Gasal Q.S.C, Salam Tower**
  Dolphin metering station E&I support works & installation of Power cables, Fiber optic cables with supply of cable accessories
- **Qatar Engineering & Construction Company WLL**
  Engineering & Design for replacement of LV Switchboard HVAC & Emergency Lighting system
- **Gasal Q.S.C, Salam Tower**
  Installation of 250KVA Diesel Generator including Foundation Civil & Canopy works.
- **Al-Balagh Trading & Contracting CO W.L.L**
  Installation of Football Field Light Pole and Supply & Installation of XLPE cables, MCB & Electrical spares.
- **Petrotec**
  LV Switch board installation and supply of gland and other consumables
- **Supreme Education Centre**
  Supply & Installation of Cables & Wires, SMDB & DB etc
- **Doha Festival Mall**
  Supply & Installation of Wiring Accessories, Cables & Wires, SMDB & DB, Fire Alarm System, Data & Telecom etc.
- **H.H. The Emir's Private Affairs Office**
  Supply & Installation of LED Light Fixtures
- **Prosperous Qatar WLL, Doha**
  Supply & Installation of Wiring Accessories, Cables & Wires, SMDB & DB, Fire Alarm System, Data & Telecom, Fire Fighting Equipments etc.
- **Worley Parsons**
  Engineering study on HVAC at Q Chem plant.
- **Al Khor & Dakira Schemes & Services Company**
  Supply and installation of Preliminary works, Electrical works, Civil works, Finishing works, External works, MEP works, Steel Structure works, Testing & Commissioning of Supermarket
- **Mohamed Abdulrahman Al-Bahar Sons. WLL**
  Supply and installation of Cable tray, Cable Pulling & LV Panel termination work at Metro Green line Metro Stations.
- **Qatar Foundation (CCC)**
  HDPE 400 Dia Welding work
- **Qatari Diar VINCI Construction (QDVC)**
  MOI & QAF Telecommunications Network for Cable Tray Works
- **Aqua Chemie**
  Proto type–R-0 Plant in UMM-AL HOUL Project
- **Qafac**
  6.6 KV Qafac retrofit project
- **Petrotec**
  Upgrade of low voltage switchboard CLINK-I to latest version CLINK-II units
- **Petrotec**
  Installation of Capacitor filter for Gutor UPS at Qatar Gas Plant
- **Ess- Essential Systems & Services**
  Installation of BMS panel and containment works

OFFSHORE PROJECTS

- **Petrotec**
  Installation of Capacitor filter for Gutor UPS at Qatar Gas Plant
- **Schneider Electric**
  Barzan & RGX Offshore Workstation and FCP upgrade
- **Schneider Electric**
  Busduct replacement work-NFBQG1
- **Petrotec**
  Upgrade Existing Saft NIFE UPS and DC Battery Charger

CIVIL DIVISION

We have carried out Civil projects in RLIC , Qatar University, Umm-Al Houl , Mesaieed industrial city.

Civil engineering works such as design, estimation, execution, Construction, Supervision & Maitenance of the structures like building and warehouse

MEP Works to connect the BSL-3 Mobile trailer Laboratory with existing facilities at H10 building in Qatar University.

CONCRETE FOUNDATION FOR PACKAGE SUBSTATION AND RELATED CIVIL EORKS FOR ELECTRICAL TIE-IN FOR PETROTEC

GENERAL MAINTENANCE DIVISION

Our maintenance divisions have been established in 2013 in which we aim to give a very high quality services for our customers in the shortest time and most professional methods. This will be in covering all the customers requirements of different services such as electrical, plumbing, drainage, A/C, ventilation and fire fighting system.

TECHNICAL MANPOWER SUPPLY

As a manpower supply company, Apogee offers quality labor which will meet the demands of the local market. We have an extensive pooling of manpower reserve from which human resource requirements could be steadily drawn to meet the demand of the clients. We are a fast growing agency with a dynamic group of highly qualified professionals who were trained to fulfill the requirements of our customers. we offer personal and professional service to all our clients, ensuring that we will meet their immediate and future requirements.

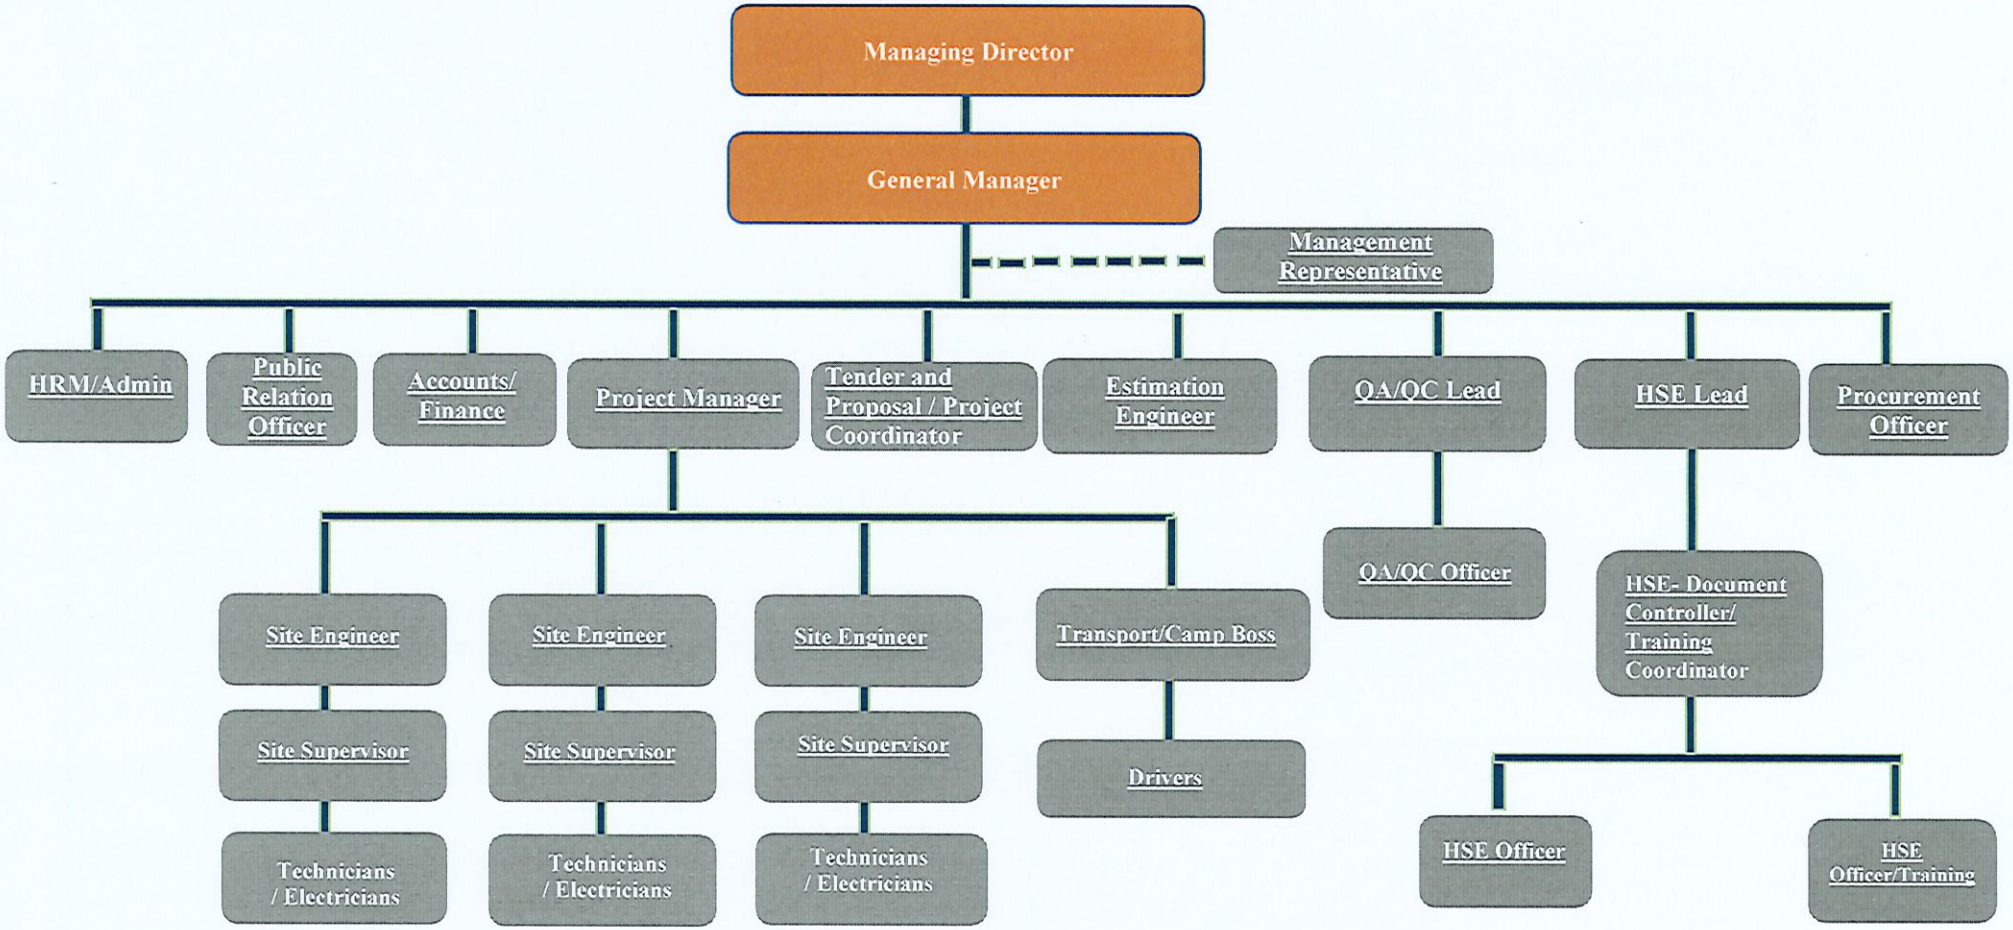

ENGINEERING STUDY

We from Apogee Engineering Services does several engineering study projects in oil and gas mainly in Q-Chem & Qatar Gas. Where there is an upgradation of 13 buildings having HVAC cooling issues we did under Worley Parson. And similar for Qatar Gas “Shelter in Place” project engineering study done and report submitted.

This Certificate is an updated version of the initial Certificate issued on 02 June 2026. The update was conducted by Tawteen through the ICV Digital Portal.

Updated Date

24 Jun 2026

توطين TAWTEEN
In-Country Value (ICV) Digital Portal

Note: This ICV Certificate is issued by Tawteen through the ICV Digital Portal as an extension to the ICV Certificate 10006073 issued on 04 March 2025.

* The “Grace Period Expiry Date” identifies the end of the 15-month certificate validity period (12 months of standard ICV Certificate validity + 3 months grace period). If the certificate is in the grace period, to be eligible to bid in tenders with Energy Sector companies, suppliers must submit a signed engagement letter from an ICV Certifier along with the bid documents.

KEY PERSONNEL'S CV

D. Mahadevan B.E (Managing Director)

Electrical Engineer / HSE Consultant (20+ yrs)

Mail Id: deva@apogeeqatar.com

Mobile: *+968 7927 2778*

RESUME

An educated, young, dynamic, qualified and motivated SHEQ (Safety, Health, Environmental & Quality) engineering having a phenomenal track record with one of the reputed companies and seeking a challenging and growth-oriented profile in a dynamic organization to contribute accrued skills in achievement of mutual objectives.

QUALIFICATIONS

Academic Degree	:	Bachelor of Engineering in Electrical & Electronics (1999 - 2003).
Professional	:	Post Graduate Diploma in Safety Management & Electrical Safety.
International	:	NEBOSH International General Certificate.
Training Certification	:	HSE management systems ISO 9001, ISO 14001, OHSAS 18001.

CAREER ACHIEVEMENTS

- Developed Project SHE procedures, training procedures, Checklists and implemented SHE&S Management System.
- Participating in project HSE Studies such as HAZID, HAZOP, QRA, SIL, LOPA, FMEA, EIA Fire prevention and protection.
- Knowledge in international HSE regulatory requirements, standards and codes.
- **Responsible to ensure QP, QG, RG and Kahramaa safety standards and regulations are fully implemented in RLIC and assets owner operational areas.**
- Conducted Qualitative Activity Risk Assessments for project related activities. ☒ Preparing HSE technical documents for Tenders/Proposals.
- **Liaison with Kahramaa to energize 132kV SS from 220kV RL2 Kahramaa Substation.**
- Compliance towards mandatory Laws (Eg: Law No: (14) for 2004, Law No: 30 of 2002).

Experience: (Total: 20 yrs in Safety Profession, especially in Oil & Gas and Chemical Industry)

1. MANAGING DIRECTOR – APOGEE ENGINEERING

Working with various clients such as ABB, Schneider, Petrotec, Gutor, Emerson, Worley Parsons in various engineering, retrofit and installation projects with various clients like Qatar Petroleum, Qatar Gas, Kahramaa etc.

- Develop and execute the company's business strategies in order to attain goals.
- Provide strategic advice to the team.
- Prepare and implement comprehensive business plans.
- Plan cost-effective operations and market development activities.
- Ensure customer requirements and allocate right resources.

2. SAFETY LEAD : RAS GAS - OPERATIONS (Since Nov 2014 to November 2017)

Ras Gas Company Limited (Ras Gas) is one of the world's premier integrated liquefied natural gas (LNG) enterprises and has an enviable reputation for being a safe and reliable supplier of LNG that has transformed a regional resource into a key component of the global energy mix. Ras Gas manages and operates seven LNG trains, two sales gas production facilities, two helium plants.

Roles and Responsibilities:

- Provides safety and loss prevention information, support and mentorship to Operations personnel and other internal clients to ensure the conduct of safe work practices.
- EPIC safety design documents (PFDs, P & IDs, data sheets, specifications etc).
- Process safety review prior to start up in Train 1, Utilities, common process area.
- Gas testing during gas –in, into systems, Slug Catcher, C3, C4, C5 & RGC compressors.
- Participating in System walk downs, PSSR, Commissioning & Startup.
- Familiar with safety requirements in operations, ESD systems relieve and blow-down system.
- Monitor operations activities during SIMOPS, pre-commissioning & shut down.
- Assists with the development and implementation of safe operating and emergency procedures, manuals, bulletins and other safety publications.
- Knowledge of Loss prevention engineering practices, industry fire and safety codes, standards and specifications, such as NFPA, OSHA and API.
- Takes an active role in the development and implementation of the permit to work system and provides independent oversight by reviewing selected permits issued by Operations personnel.
- Participate or leads a multi-disciplinary team in routine and special risk assessment on the entire span of client operations.
- Approves and reviews technical aspects of bids from Consulting Engineering Companies and Construc tion Contractors for his functional area of work.

3. SAFETY LEAD– QATAR GAS, JBOG PMT (Since Nov 2014 to November 2017)

Company Profile: Qatar gas established in 1984, pioneer of liquefied natural gas (LNG) industry in Qatar. It's the world largest LNG producer, with an annual LNG production capacity of 42 MMTPA.

Project Involved: The Jetty Boil-off Gas recovery project aims to recover and collect vapors that are created from the production of LNG and reduce the amount of gas that has to be flared. Project is inside Ras Laffan City from Berth 1 to Berth 6 of Qatar Gas and Ras Gas.

Roles and Responsibilities:

- Review all EPC contractor, SIMOPS plans and associated procedures.
- Prepare risk assessments for critical activities, QRA, SIL & HAZOP Study.
- HSE incidents for all the areas of responsibilities within assets owner inside RLIC are notified, reported recorded and investigated in accordance with client HSE Incident Management System.
- Implement a consistent approach for SIMOPS management throughout the transition period from construction through pre-commissioning / commissioning to start up.
- Leads LOTO compliance and electrical safety inspections and strictly enforces electrical LOTO policy.
- Being a focal point for IIF related activities, educating people about the behavior, attitude, commitment to achieve Qatar gas target.
- Ensure identification of root causes, implementation & close out of recommended corrective actions and repare the lessons learnt for all HSE incidents.
- Review the permit to work systems and associated documents, JSA, MS.

- ❖ Liaison with RLIC Environment Department to do surveillance and audit.
- ❖ Liaison with RLIC Fire department to obtain the Camp and TSF occupancy certificates.
- ❖ Carry out compliance audit towards contractors HSE management system.
- ❖ Coordinates between Operations dept, PMT and contractors to lead supports Project safety and Ensure all related e-CPW, PTW in SIMOPS area handles.
- ❖ Supervisory Skill training, IIF, train the trainer and environmental trainings.

4. HSE MANAGER : CONSILIUM QATAR L.L.C (From Dec '08 to Nov '13)

Company Profile: It's a Sweden based MNC, performing Navigation and Fire projects carried out **Electrical & Instrumentation projects** in Qatar for **Qatar Petroleum & Qatar gas.**

Project I: a) 18" MPPL (Multi Product Pipe Line, **Mesaieed Industrial City**)
b) GSVC (Gas Supply from Station V thro' Facility C), Ras Laffan Industrial City Client: Qatar Petroleum

Project II:

EDG, GDG, STG Transformers Installation & Commissioning - **Qatar Gas 3 & 4.**

HSE Achievements:

- ➢ Organized National Safety day on 4th March 2010 function to crown best safety performers.
- ➢ Created Safety improvement plans for the organization.

Quality Assurance and Quality Control Achievements:

- ➢ Developed a Quality Manual in accordance with ISO 9001:2008 standard.
- ➢ Conducted Quality awareness trainings to the employees.
- ➢ Implemented a HSE Internal audit procedure and followed up on corrective actions.

Roles and Responsibilities:

- ❖ Implement IMS systems & Procedures (ISO 9001:2008, EMS 14001 and OHSAS 18001).
- ❖ Conducted internal safety meetings and audits.
- ❖ Responsible to ensure QP safety standards and regulations are fully implemented in MIC operational & responsible areas.
- ❖ Conducted basic safety induction and mandatory trainings to new comers.

5. SAFETY ENGINEER: RELIANCE INDUSTRIES LTD – (SEZ PROJECT) JAMNAGAR

(Sep '05 – Nov '08) – India.

Company Profile:

Company under the certification of ISO: 9001, ISO: 14001, BS OHSAS: 18001 and Achieved Five Star award by British Safety Council UK. World Fortune Company rank 269.

Project Detail:

Project Name: **Jamnagar Export Refinery Project**
Consultant: **BECHTEL & FOSTER WHEELER**
Project Value: USD 3.5 billion

Roles & Responsibilities:

- ❖ Performed Risk Assessment, JSA, HAZOP, PSSR studies.
- ❖ Reported to Central safety department & BECHTEL Safety experts.

6. SAFETY OFFICER CHEMICAL Industry - Hindustan Unilever (June '03 – August '05)

Company Details : Unit is a Third Party of Hindustan Unilever Ltd manufacturing (Home Care Products-Detergents Powder and Soaps);

Roles & Responsibilities:

- Adherence to Statutory Acts (Factories Act 1948, Indian Electricity Rules 1956, Air, Water and Pollution Act etc).
- Maintenance of 22Kv/.440kv H.T structure, Transformer yard (500 MVA), Switchgears and D.G. set (1600 KVA).
- Involve in Substation Commissioning activities.

Professional Training Certifications:

- Basic Life Support (Hamad Medical Corporation, Qatar) ☒ Incident Injury Free training by JMJ Associates, UK.
- Supervisory skills leaders workshop conducted by JMJ Associates, UK.
- Train the trainer course conducted by JMJ Associates, UK.
- OPITO T-BOSIET offshore training
- Defensive driving in Qatar Gas
- H2S / BA training in Qatar Gas
- Environmental awareness and Waste management e-learning in Qatar Gas.
- Certified rigger for level 1 by VELOSI (Accredited by Qatar Petroleum)
- Certified PTW, CPW by Qatar petroleum.
- Authorized gas tester by Total Safety.

APOGEE

M Purushothaman B.E (General Manager)

Electrical & Electronics Engineer (30+yrs)

Mail Id: purushothaman@apogeeqatar.com

Mobile: +974 5569 7757

Professional Affiliations

Key Experience

- 30+ years of professional experience in the field of motors and pumps, including design of special purpose AC motors. Hands on experience in maintaining & trouble shooting in electrical HT/LT panels. LT Over head Cranes, Lifts, generator AMF and MMF panels. Good Knowledge of maintenance of DG sets, HVAC, Cooling & central heating Systems. Good exposure to power auditing and powerhouse maintenance.
- Four years spent in Cyprus (Europe) working for Mitas Generators, Ltd.
- Engaged with Integrated Data center project in designing of all HT/LT System for M/s. Reliance Engineering Associates Pvt. Ltd.
- Presently working with Qcon as a Lead Engineer –Electricals. Engaged in Proposals activities parallel coordinating with Project execution activities.

Job Profile

- Planning & Preparation of HT/LT single line diagrams.
- Scrutinizing calculation of UPS design, battery bank, earth pit and strips submitted by Design Consultants.
- Designing of Earthing layout.
- Preparation of Lighting layout.
- Cable schedule.
- Technical bid evaluation
- Equipment selection.
- Equipment layout preparation.
- Designing Installation drawings for construction purpose.
- Co-ordinate with different agencies to maintaining proper Execution of project.
- Ensure work is in accordance with working drawings and specification.
- Inspection of panel board as per relevant standards.

DETAILS OF EXPERIENCE

Qatar Engineering and Construction Company

(June 2009 – 2021 January)

- Company Profile:
- Qatar Engineering & Construction Co. WLL (Qcon) (Formerly known as Mideast Constructors; a subsidiary of Mannai Corporation) which was founded in Qatar in 1974.
- Qcon is an ISO 9001:2008 certified and operate a full Quality Management System. Also, Qcon is certified to OHSAS 18001:2007 for the Occupational Health and Safety Management System and ISO 14001:2004 for Environmental Management System.

- Qcon has vast experience in executing major onshore and offshore EPIC, Maintenance, Specialized main tenance services, and construction projects in Qatar. Qcon has successfully executed over 1500 projects, operating to the highest global standards with strong Mechanical, Civil, Electrical & Instrumentation and Marine Construction capability.

Companies, Siemens, ABB, Alstom, Kahramaa & Kahrama contractors.

- Preparing Cost estimate of electrical scope of work and getting approval from the line management prior to the submission to client.
- Preparation of Method Statement, Manpower Deployment schedule, equipment deployment etc. for the technical submissions.
- Attending pretender meeting and site visit.
- Arranging subcontractors/suppliers' inputs for the tender preparations.
- Review the scope of work and prepare the estimate accordingly.
- Evaluate the manpower availability and prepare manpower loading as per the project requirements.
- Preparation of Execution Budget for the awarded projects.
- Follow up on the tenders submitted to know the status and if not won, review the reason for the same.
- Preparation of lessons learned
- Involved in Project Execution and timely completion of projects safely.
  Frequent visits to the running projects to evaluate the progress of the project and are in line with the estimates.

Reliance Engineering Associated Pvt Ltd

(Feb 2007- May 2009, Thane- Belapur Road, Ghansoli, Navi Mumbai 400 701)

- Company Profile:
- The Reliance Industries Ltd, Group headed by Mukesh D. Ambani , is India's largest private sector enter-prise, with businesses in the energy and materials value chain. Group's annual revenues are in excess of US$ 34 billion. The flagship company, Reliance Industries Limited, is a Fortune Global 500 company and is the largest private sector company in India.
- Job Profile:
- Designation: Manager (Electrical Projects) – Design and Execution
- Responsible for discuss with consultant to expedited the documents and drawing review, comments and approvals. Design calculation check as per the standard, proper notation were used in the drawings. Specification prepared based on that TBA,GA and TBR give it to the procurement. CO-ordinate with vendor for manufacturing as per the site condition. Any necessary changes required it will get it done in their place only. continuous monitoring the construction/ contractors to minimize the wastages. Imple mented bus trucking system in one our high-rise building.

Mitas-Generators, Ltd.

(April 2004 –January 2006, Paphos, Cyprus)

- Company Profile:
- A leading local manufacturer & exporters of all types of Diesel generators & electro pumps to African Countries.
- Job Profile:

Designation: Sr. Engineer (Electrical) – Commissioning & Servicing

- Responsible for production of generators, generator control panels (manual and automatic), pump panels. Also responsible for testing, erection and energizing of generators at all level from 10KVA to 500 KVA DG sets. Major engines are Perkins, and Volvo silent proof generator sets.
- Played an important role in-time servicing and coordinating with the customer-care team, to improve production quality.
- Installation and maintenance of central air-conditioning & heating systems.

Gedee Stoll (P) Limited

(August 2001 to Jan 2004, 813 , Avanashi Road, Coimbatore 18, India)

- Company Profile:
- A manufacturer of industrial and domestic ESP monobloc pumps, chemical pumps, high pressure clean ers, and coolant pumps. The company is in technical collaboration with Stoll GmbH, Germany.
- Job profile:
  Designation: Engineer-Production
- Responsible for the design and development of industrial and domestic pumps made from high quality engineering plastics.
- Played important role in the assembly & testing of pumps under ISI Standards.
- Responsible for the template development of the same pump to increase productivity.
- Had an important role in the allocating of work for day-to-day activities and inventory management.
- Development of vendor capability for effective use of the product.
- In charge of preventive, breakdown, production maintenance and inspection of electrical components.
- Conducted a special project of energy auditing in injection molding machine shop, increasing the efficiency by 10-15% for a sister concern: G Plast Ltd., by testing, identifying and replacing defective motors.

Lakshmi Automatic Loom Works Limited

(June 1999 – July 2001, Knitting Machinery Division, Coimbatore. India)

- Company Profile:
- Manufacturer of Lakshmi Terrot knitting machines and machine tool accessories, such as drilling chucks, etc., in-collaboration with Terrot Strick Maschinen GmbH, Germany.
  Job profile: Assistant Engineer-Electrical
- Responsible for the design and development of panel boards for circular knitting machines.
- Servicing of AC inverters and PCB's for knitting machines.
- Troubleshooting knitting machines and commissioning of electrical control panels.
- Assisted in preventive, breakdown maintenance, powerhouse maintenance and inspection of electrical components.
- Helped to retrofit DC machine drives to AC in order to increase productivity.

Gedee Weiler (P) Limited

(Sept 1995 to May 1999, Podanur, Coimbatore 23, India)

- Company Profile:
- Manufacturing CNC machines, turret, Capstan and automat lathes since1975, in technical collaboration with Weiler Werkzeugmaschinen, Germany.
- Job Profile:
  Designation: Supervisor–Motor Division
- Responsible for the testing of regular manufactured motors.
- Developed AC motors for special purpose machines.
- Engaged in day-to-day maintenance activities on the shop floor, powerhouse and transformer room.
- Looked after DG set and air compressor maintenance.

Project Management

Highly successful project outcomes.

SENTHAMARAI KANNAN.T

ASSO.PROJECT MANAGER

To Work in a challenging environment where I can proof myself by utilizing my skills and knowledge and resulting organizational growth as well as individual development.

EXPERIENCE

ASSO PROJECT MANAGER APOGEE ENGINEERING AND TECHNICAL SERVICES CO.
JUL 2024 – PRESENT

PROJECT ENGINEER APOGEE ENGINEERING AND TECHNICAL SERVICES CO.
MAR 2022 – 2024

SITE ENGINEER APOGEE ENGINEERING AND TECHNICAL SERVICES CO.
Mar 2018 – 2022

SUPERVISOR APOGEE ENGINEERING AND TECHNICAL SERVICES CO.
Mar 2016 – 2018

Coordinate with vendors and other disciplines (process, mechanical, piping,electrical, civil & architecture, etc) for instrument design including business trip.
Coordination with Project Management, Planning, Construction and ProcurementDepartment.
Participate in development of P&ID's, Risk assessment, Method of statement andReviews.
Coordinate field work performed by a multitude of trades.
Identify and remove barriers that hinder sub-contractors' ability to executetheir work efficiently.
Solicit assignments from management regularly to ensure proper work distribution. Prepare drawings and sketches to support construction work as required.
Attend project co-ordination and owner/contractor/architect/engineer meetings as requested or required.
Responsible for continuously expanding and updating professional knowledge and honing training skills in order to enhance individual and team innovation andproductivity.

Perform Vendor Prints Check and Approval. (Include mechanical package items, compressor, heater, vessels, filters, pumps, etc.
Reviewing Instrument Hook-Up Drawings, Steam Tracing Hook-Up Drawings,Typical Installation Details, and Cable Schedule that are prepared by engineering sub-contractor.
Reviewing Instrument Layout Drawings such as Cable Tray Layout Drawing, Instrument Location Drawings, Instrument Wiring Layout Drawings, Instrument Utility Piping Layout Drawings, etc. that are prepared by engineering sub-contractor.
Reviewing Bulk Material Take-Offs that are prepared by engineering sub-contractor.
Installation of electrical and instrumentation works such as power andcontrol cable termination, glands, termination materials & accessories.
Installation of LV switch gear, relay panels, fire alarm panel, DCS, master serverpanel and workstation as per project specifications and IFC drawings.
Supervision and installation of instruments such as pressure, level, flow, temperature, humidity and transmitters.
Installation of Cable Trays, Conduits, Instruments Stands, Junction Box as perhazardous area classification wise.
Termination of Fields Instruments, Junction Box, and Marshalling Panels.
Supervision and installation of hookups and pneumatics lines.

RESIDENT ENGINEER.CHEMTROLS INDUSTRIES LTD.
Jan 2014 - Feb 2016

Review of P&ID, Hook-Up, and Data Sheets for various type of instruments.
Hands on experience in pre-commissioning of DCS Systems, Fire Alarm.
Calibration, Loop Checking, Pre-Commissioning and Commissioning of Instruments which communicates with different type of protocols such as foundation field bus and pro fibus.
Supervision and training of technicians and foremen for proper installation of workexecution.
Review typical installation details and project engineering standards prior toexecuting field installations.
Interconnection cables pulled between Electrical and instruments panels.
Coordinate with client PD (Project department) regarding the job execution, approval of sample installation, and initiate request for inspection (RFI) for approval from QA / QC dept.

JUNIOR ENGINEER.DEAS TECHNOLOGY SOLUTIONS (P) LTD
Apr 2011 - Dec 2013

Support the Construction Manager or designate from a technical perspective ensuring that RFI's are: Researched correctly and submitted, correctly answered,Tracked, Issued to field contracts personnel for management of change implementation.
Quantity field surveying (or punching) for construction and reporting back to Construction Manager or designate any inconsistencies.
Support field proposal development for change.
Identify changes by reviewing all IFC drawings, drawing revisions, and customer requests.
Provide timely notice to customer in accordance with contractual requirements.
Review all incoming customer drawings and site work instructions, Field Change Quotation (FCQ), if applicable, and confirm schedule.
Display familiarity with site construction schedule as it relates to multi-discipline durations. Promote efficient constructability through effective interface management.
Participate in Inspection & Test for instrument Items as well as equipment package control systems. (SAT).
Perform site activities, such as Field Engineering, supporting for commissioning andstart-up.
Preparation and authorized to approve the monthly invoice documents for thesubcontractor.

PROJECTS HANDLED

Gasal Oil & Gas Plant, GASAL Qatar (As Subcontractor)

Replacement of Server cabinets in Gasal head office control room facility.

Job Involved: Replacement of server cabinets and associated works such as installation,Testing and commissioning with OEM people.

ORYX GTL Limited, GASAL Qatar (As Subcontractor)

Installation of cables between the cooling towers.

Rasgas Barzan, SCHNEIDER GUTOR Qatar Project (As Subcontractor)

Replacement of existing Batteries in Gutor UPS in Ras gas substations.
Job Involved: Installation and testing of batteries in gutor UPS with OEM people.

QG Shutdown Project, SCHNEIDER Invensys Qatar Project (As Subcontractor)

Triconex system up gradation for Hardware installation
Job Involved: Site wide SCADA/DCS Marshaling and IPS panels installation in QG2Substations.

DCS and ICS systems Upgrade project in QG South ONSHORE and OFFSHORE
Project

DCS and ICS upgrade in existing systems at QG South Well Head areas in OFFSHORE.
Job Involved: Installation of DCS and ICS systems, Modification and installation of network switch, HMI Work station, existing server cabinets and along with control and Network cabling activities and testing of DCS and ICS systems.

CLINK Upgrade project in QG North and South

LV protection upgrade from Clink-I to Clink-II in Qatar gas North and South.
Job Involved: LV protection upgrade from Clink-I to Clink-II in Qatar gas North and South plants during shutdown. (Temporary power supply provides for the switchboard and upgrading of feeder modification, CIU, clink cassette, device net replacement from clink-I to Clink-II)
